

# Schild Line

## Basic Face Mask

### Fluid repellent layer

The outer layer of each Schild Line® Basic face mask is made from a high-quality non-woven spun-bond PP fabric that provides an effective barrier against dust and droplets that may harbor pathogens.

### Soft interior layer

The innermost ply of Schild Line® Basic face masks is specially crafted to provide near-natural breathability while also preventing skin irritation and heat build-up

### Insulated nose pin

Integrated in the spun-bond layers of Schild Line® Basic face mask is an RoHS approved insulated single core wire serving as the nose pin for perfect form fitting so as to prevent air leakage

### Gentle ear loops

Schild Line® Basic face masks feature unique latex-free ear loops that are ultrasonically welded to provide a comfortable pressure-free hold around the ear

#### TAKE NOTE

- Always wash/sanitize hands before handling your mask
- Change masks as frequently as possible, never exceeding 6 hours with one mask
- Do NOT touch your mask or your face in public places
- Only remove the mask by pulling off the ear loop

### FEATURES

- Manufactured in a cleanroom facility
- UV sterilized for extra safety
- High efficiency bacterial filtration
- Ultrasonically welded ear loop for extra comfort
- RoHS approved form-fit single core nose wire
- Skin-friendly, non-irritating 3-ply fabric design
- Odorless non-woven spun-bond material
- Free of latex and glass fiber

### PROPERTIES

- Budget-friendly 3-ply face masks with the perfect balance of medical-grade spun-bond non-woven PP material
- Soft, skin-friendly inner fabric with comfortable ultrasonically welded ear loop
- Form-fitting insulated single core nose wire
