

Schild Line

N95 Face Mask

6-Ply design

Multiple layers of medical grade non-woven fabrics in Schild Line® N95 face masks provide the excellent protection against pathogens, dust, allergens, harmful gases and other contaminants

Waterproof outer layer

Schild Line® N95 face masks have a non-woven outer layer made of spun-bond fabric that is impenetrable to water while effectively blocking the passage of particulate matter and bacteria

Skin-friendly microfiber filter

An electrostatically charged microfiber filter in the 6-ply Schild Line® N95 face masks keeps pathogens at bay without irritating the skin

Melt-blown layers

High-quality melt-blown layers provide Schild Line® N95 face masks with extra defense for increased efficacy in microfiltration and absorption of tiny particles and bacteria

Soft and comfy inner ply

The soft and comfortable inner ply of Schild Line® N95 face masks is non-toxic, non-irritating, and fights moisture build-up for excellent breathability

Form-fitting nose pin

Schild Line® N95 face masks feature an RoHS approved insulated single core wire that snugly fits the nose bridge to prevent air leakage and exposure to contaminants

Ultrasonic welded ear loops

Schild Line® Basic face masks feature unique latex-free ear loops that are ultrasonically welded to provide a comfortable pressure-free hold around the ear

TAKE NOTE

- Always wash/sanitize hands before handling your mask
- Change masks as frequently as possible, never exceeding 6 hours with one mask
- Do NOT touch your mask or your face in public places
- Only remove the mask by pulling off the ear loop

FEATURES

- 100% cleanroom production
- UV sterilized for pathogen destruction
- Melt-blown layers with high efficiency bacterial microfiltration
- Gentle ear loops feature an ultrasonic weld
- RoHS approved insulated single core nose pin
- Soft, non-toxic, non-irritating 6-ply fabric
- Odorless non-woven spun-bond and melt-blown materials
- Glass fiber free and latex free

PROPERTIES

- High filtration efficiency 6-ply N95 face masks with 2 melt-blown layers that provide the ultimate degree of filtration efficacy against bacteria and viruses
- Soft, skin-friendly cotton filter and non-irritating spun-bond medical grade non-woven PP
- Insulated single core nose wire creating a form fitting nose pin
- Stretchy ultrasonically welded ear loop that gently hugs the outer ear

ORDERING INFORMATION

Cat. No.	6-502-50-2C
Description	Schild Line® N95 Face Masks
Pack	1 x 100 pcs.
